WEIGHT: 13.26oz

HEIGHT: 10.43in

— LIQUID VOLUME

500 ml

— MATERIALS

316 Stainless Steel (inner wall)  
304 Stainless Steel (outer wall)  
No Glue, No BPAS

— COLORS & BOTTLE CARE

12 vibrant colors

Hand wash, dishwasher safe

**01** | The Strap

Made of silicone, it guarantees high flexibility and resistance. It keeps the lid together with the bottle.

**04** | Internal layer

The internal layer is made of 18/10 steel, the safest material for food and drinks.

**02** | External layer

The external layer is made of 18/8 stainless steel - safe and rust resistant.

**05** | Lids

Made with a vacuum inside to better isolate the contents of the bottle, they can be opened easily (top 1/2 round, bottom 1 round).

**03** | Copper metalization

The vacuum between the two walls was metalized in copper to create even greater insulation.

**06** | Bottom lid protection

Made of silicone, provides protection to shock and wear together with a better stability of the bottle.
